reportbook

Easy to use
. school software
. college software

Reliable and secure software

Low Cost of Ownership

Complete Automation of operations

More Time to focus on Strategic Tasks

Multiple Campus Management

Better informed decision making for management

Different deployment options for different requirements

Scalable, Customizable and Supports Multiple Modules

FEATURES

Extremely scalable
Buy only what you need, start small and grow the system with your business.

Batch Invoicing
Automate billing instructions for all recurring invoices to be generated with a click of a button.

Automated SMS Instructions
This system can be configured to automatically send an SMS/Email to the parent if their kid is absent for the class. For safety reasons!!

Attendance taking (with Mobile App)
A Mobile app to capture attendance via pin-code and/or photo verification (optional).

Customisable Dashboard
Display your desired key business information to notify you of how your business is doing, real-time!

Student and Tutor Profiling
View and manage student and tutor profiles. Includes information such as payment history, class results, attendance etc.

Customisation for unique workflow and approvals
The system can be customised to replace any workflow to ease manual processes.
