

# reportbook

Easy to Use

Reliable and Secure Software

Low Cost of Ownership

Complete Automation of Operations

More Time to Focus on Strategic Tasks

Manage Multiple Centres/Branches

Better informed decision making for management

Access from Anywhere With Any Device.

Scalable, Customizable and Supports Multiple Modules

## FEATURES

### Extremely scalable

Buy only what you need, start small and grow the system with your business.

### Batch Invoicing

Automate billing instructions for all recurring invoices to be generated with a click of a button.

### Automated SMS Instructions

This system can be configured to automatically send an SMS/Email to the parent if their kid is absent for the class. For safety reasons!!

### Attendance taking (with Mobile App)

A Mobile app to capture attendance via pin-code and/or photo verification (optional module).

### Customisable Dashboard

Display your desired key business information to notify you of how your business is doing, real-time!

### Student and Tutor Profiling

View and manage student and tutor profiles. Includes information such as payment history, class results, attendance etc.

### Customisation for unique workflow and approvals

The system can be customised to replace any workflow to ease manual processes.
